

BIAAF calls emerging designers worldwide for its 6th Edition

Our International Fashion Design Contest is targeted at emerging designers from all over the world aged from 18 to 35 years old and counts with the support and advice of renowned professionals in the fashion and art areas. BIAAF's international scope aims for intercultural enrichment by showing the different approaches of fashion towards art and the promotion of fashion as a true cultural value.

For this reason, all works submitted should be inspired or be directly related to the world of art (printing, shapes, details...). Our main goal is to enable young designers to make themselves known to a wider public and the media.
